PUBLIC NOTICE

Regarding Modifications to the Kent Facility RCRA Part B Permit

12-09-2004

Burlington Environmental Inc., a wholly owned subsidiary of Philip Services Corporation (PSC), has modified the RCRA Part B Operating Permit for its Kent facility, in accordance with Washington State Dangerous Waste Regulations Chapter 173-303-830 WAC. These changes are classified as Class 1 modifications, under the three tiered modification system established by federal and state regulations. Of the three classes of modifications, Class 1 modifications are the most minor and do not substantially affect facility operations.

General Facility Operations

PSC's Kent facility, located at 20245 77th Ave. S. Kent, WA 98421, is a commercial dangerous waste management facility. Treatment processes include treatment of household hazardous waste, consolidation of dangerous and household hazardous wastes, wastewater treatment, and stabilization. There is no disposal of dangerous wastes on site.

Summary of the Modifications

KTMOD11-1: This Class 1 modification consists of minor revisions to the facility contingency plan.

The Part B Permit, the modifications presented above, and supporting documentation can be reviewed at:

Washington State Department of Ecology
Northwest Regional Office
3190 160th Avenue SE
Bellevue, WA 98008-5452
